

## Positively impacting wellness journeys through art

H. Marion's design staff understands that art has an emotional component: an ability to transform a location, an experience, an encounter. The understanding of that very personal connection – and the potential for it to be life-changing – is at the core of H. Marion's business.

- We have achieved a successful consulting practice through years of Evidence-Based Design, ongoing research, and strong relationships forged with clients and local artists.
- We believe that each project has its own personality and unique set of challenges
- Our team of art consultants, graphic designers, and licensed interior designers specialize in healthcare.

We will strive to create an art program that will reinforce your brand while supporting the specific patient population's needs and positively impacting the journey to wellness for all patients, visitors, and staff who enter your new space.

# Turn-Key Art Services

H. Marion's design staff understands that art has an emotional component: an ability to transform a location, an experience, an encounter.

The understanding of that very personal connection – and the potential for it to be life changing – is at the core of H. Marion's business.

**Art Visioning**

**Graphics & Printing**

**Fabrication**

**Delivery & Installation**

- All designs are created by licensed ASID, IIDA interior designers.
- Our graphics department is dedicated to the creation of client deliverables; we create presentations, art location plans, and elevations to further communicate our design ideas and streamline art selections.

- Our online art portal is available 24/7 to facilitate the review of art selections and placements remotely and with ease.
- We have a tested procurement process in place to ensure all art and installation materials arrive quickly and correctly, guaranteeing consistent Quality Control. We maintain our own 4,000 s/f production facility and have complete control of scheduling and production to meet all deadlines, no matter how aggressive.

- Our climate-controlled warehouse can accommodate numerous projects simultaneously.
- All work is transported in company vehicles and installed by experienced H. Marion staff.
